RETIREBLUEPRINT PRO

YOUR RETIREMENT. YOUR PLAN. YOUR FREEDOM.

BONUS GUIDE

Put Your Plan on Your Phone's Home Screen

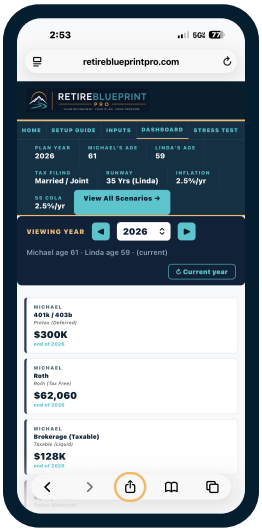

One tap, and your retirement plan opens like an app. No app store, no download, and it takes less than a minute.

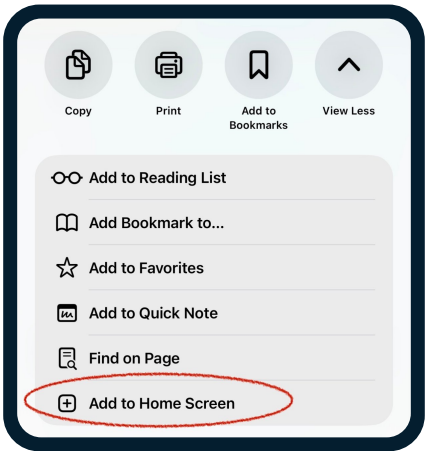

One-tap access
Check your plan anytime, right from your home screen.

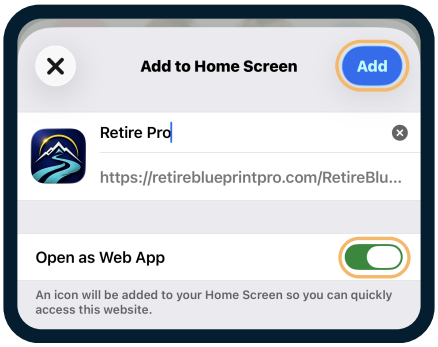

Nothing to install
It's a shortcut to your plan, so there's no app to update.

Same private plan
Your numbers still live in your own Google Sheet.

IPHONE Use Safari

1

Open your plan

In **Safari**, open your Dashboard at retireblueprintpro.com. Tap the **Share** button at the bottom.

2

Add to Home Screen

Scroll down the menu and tap **Add to Home Screen**. Don't see it? Tap **View More** first.

3

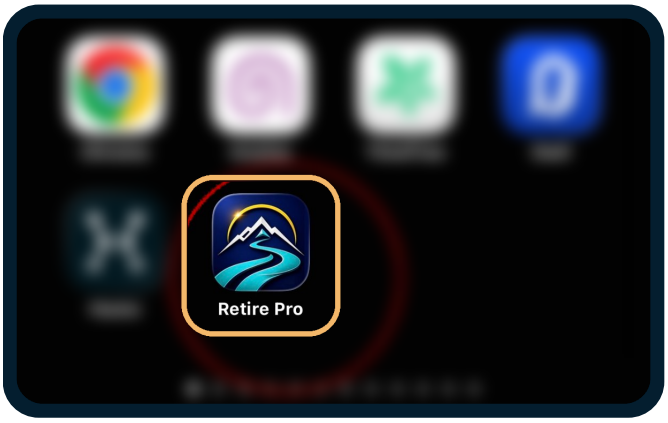

Name it, then tap Add

Name it something short like **Retire Pro**. Turn **Open as Web App OFF** (gray), then tap **Add**.

WHY TURN "OPEN AS WEB APP" OFF?

When it's on, iPhone gives the icon its own separate memory, so it won't remember which sheet you connected and shows **"No sheet connected yet."** With it off, the icon opens your plan in Safari, already connected. Already added it with the switch on? See the fix on page 2.

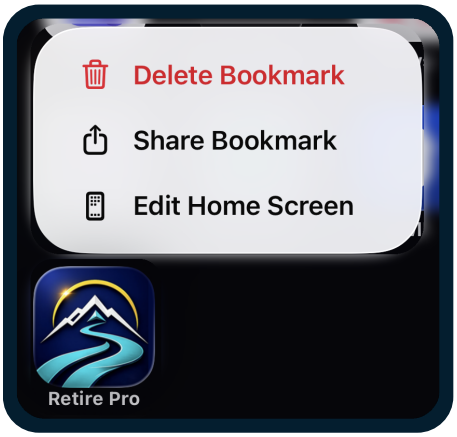

IPHONE You're done!

4

Tap your new icon

The RetireBlueprint Pro icon is now on your home screen. Tap it anytime to open your plan.

Want to remove it later?

Press and hold the icon, then tap **Delete Bookmark**. Your plan and your sheet aren't affected.

ANDROID Use Chrome

1. In **Chrome**, open your Dashboard at **retireblueprintpro.com**.
2. Tap the ⋮ menu in the top-right corner.
3. Tap **Add to Home screen**. On some phones it's called **Install app** or **Add to home screen**.
4. Tap **Add**. If asked, choose **Create shortcut**. Your icon appears on the home screen.

SEEING "NO SHEET CONNECTED YET"?

Just reconnect once: open the **Setup** page, tap **Connect Privately with Google**, sign in, and pick your sheet. You won't need to do this again on that phone. If it ever asks you to sign in again, tap **Continue with Google**.

Questions or stuck? Message me on Etsy or email **retireblueprintpro@gmail.com**. I'm a real person, I read every message, and I'm happy to walk you through it.
